

Participant Setup

Complete this preparation before the hands-on session.

Accounts	GitHub and Render
Runtime	Python 3.12
Containers	Docker Desktop
Systems	macOS or Windows

Computer access

- Bring a macOS or Windows computer with its charger and reliable internet access.
- You must be able to install software, open a terminal, run Docker, and access GitHub and Render.
- If the computer is managed by an employer or university, obtain installation and account-integration approval in advance.

Required accounts

- Create and verify a GitHub account: <https://github.com/>
- Create a Render account and connect it to GitHub: <https://render.com/>
- Keep access to your email or authentication application for sign-in verification.
- A paid subscription is not required for the planned activities.

Required software

- Git
- Python 3.12; Python 3.11 or newer is required
- Docker Desktop
- Visual Studio Code or another code editor
- A modern browser such as Chrome, Edge, Firefox, or Safari

Basic familiarity

- Open a terminal and navigate folders with `cd`.
- Edit and save text files.
- Run Python commands and read an error message.
- Use basic Git commands: `clone`, `status`, `add`, `commit`, and `push`.

Environment Check

Run these commands in Terminal on macOS or PowerShell on Windows.

1. Verify Git

```
git --version
git config --global user.name "Your Name"
git config --global user.email "you@example.com"
```

2. Verify Python

macOS	Windows PowerShell
<code>python3.12 --version</code>	<code>py -3.12 --version</code>

Expected result: Python 3.12.x

3. Verify Docker

```
docker --version
docker run --rm hello-world
```

Expected result: the final command prints Hello from Docker!

4. Verify account access

- Sign in to GitHub and confirm that you can create and clone a repository.
- Sign in to Render and confirm that your GitHub account is connected.
- If an organization restricts third-party access, use a personal GitHub repository or obtain approval.

Ready when Git, Python, Docker, GitHub, and Render checks all succeed.
